

When Ford introduced the fourth generation Transit in 2013, it redefined its line-up in the medium and large light commercial vehicle (LCV) segments. The medium segment was covered by the all-new Transit Custom, while the larger two-tonne Transit took on the heavy-duty role as the largest model in Ford's commercial vehicle range. **Models: 2.2 TDCi diesel - 100PS, 125PS, 155PS**

VXPRO EA8516
Brake Pad Fitting Kit

VXPRO EA5142
Brake Pad Wear Indicator

VXPRO EX5098
Exhaust Gas
Temperature Sensor

VXPRO EE2931
Exhaust Gas
Pressure Sensor

VXPRO EE6013
Exhaust Gas
Recirculation Valve

VXPRO EE6916
Exhaust Gas
Recirculation Cooler

VXPRO EH1159
Heater Resistor

VXPRO EH5066
Heater Blower Motor

BRAKING ACCESSORIES
HEATING & COOLING
EMISSIONS CONTROL
