UP TO 5 YEAR 'NO QUIBBLE'  
WARRANTY ON VXPRO  
SEE SENSE COMPONENTS

# VPG

## VEHICLE PERFORMANCE GUARANTEE

All VXPRO components are tested to ensure operation within the manufacturer's original parameters, guaranteeing that there will be no change to the vehicles original performance.

# OEM+

## ORIGINAL EQUIPMENT MATCHING PERFORMANCE + ADDED VALUE

VXPRO components deliver OE matching performance combined with added value from sensible pricing and additional support services from us.

# PREMIER DATA

## ALL THE DATA. WHEN YOU NEED IT.

We hold Premier Data Supplier status from TecDoc, proof of our commitment to delivering fast, consistent, and accurate product information. Quality data means fewer returns, smoother catalogues, and better buying decisions for you and your customers.

# The range:

**NEW ITEMS ADDED!**

**ENGINE MANAGEMENT: IGNITION, FUELLING, EXHAUST**

**HEATING & COOLING**

**BRAKING**

**ELECTRICAL**

**WINDOW LIFT REGULATORS**

**WIPER SYSTEMS**

**UPGRADE BULBS**

**SINGLE BOX, TRADE PACK,  
& RETAIL BULBS**

**MIRRORS**

**NEW ITEMS ADDED!**

**INSPECTION LAMPS**

**ASSIST support services from ELTA:  
we're not just a distributor...**

# STOCK ASSIST

Stocking the correct components across our brands can be challenging but we're here to help you reap the rewards with suggested **stock packs** tailored to your budget using our **market leading automotive data and industry expertise**.

For more info reach out to [sales@elta.co.uk](mailto:sales@elta.co.uk) or your **regular sales contact**

# TECH ASSIST

**Market leading application data** and technical support for the factor or garage via a **dedicated telephone line and WhatsApp**. Regular technical bulletins addressing new technology and sharing valuable skills and information. **We are proud to support independent businesses** for a better aftermarket.

Scan the QR code to **start a WhatsApp chat** or call us on **+44 (0)1675 437429** Mon - Fri 08:00-16:00

# BRAND ASSIST

We want to **work in partnership with customers** to make stocking and selling the range simple and rewarding. Our **BrandASSIST** service is on hand to help customers to create effective **bespoke promotions, turnkey promotions** as well as own brand development, management, and communication & budget plans.

For more info contact [marketing@elta.co.uk](mailto:marketing@elta.co.uk)

# Find the VXPRO & VisionPRO parts you need with the brand new e-catalogue from ELTA

## A BRAND NEW E-CATALOGUE FOR ALL

The independent aftermarket is embracing our new e-catalogue, it was built to make finding the right parts faster, simpler, and smarter.

Our goal has always been to support motor factors, retailers, and garages by providing reliable access to quality parts.

**With this free new tool, we've taken it a step further.**

SCAN FOR ACCESS

## How does it work?

Our e-catalogue is completely free to use and open to everyone. **However, you will find limited features until you register.**

After you register and submit your details, our team will finalise your account setup, **granting you access to the VRM search function, full product pricing, stock and the ability to add to basket and send an order request.**

Once your order is placed, it will be sent to our Sales Team for processing. They will then update the shipping details and confirm everything with you.

For those without access to platforms like Autocat MAM, TecDoc, and other cataloguing systems, our e-catalogue offers a straightforward, user-friendly alternative. **Simply find the parts you need quickly and easily, saving you time and money.**

## KEY FEATURES:

- Find parts via make/model index
- VRM search\*
- Search by part & cross reference
- Pricing & availability\*
- Online ordering\*\*

\*Feature for registered users only.  
\*\*Orders are sent to our Sales Team, who will then process orders

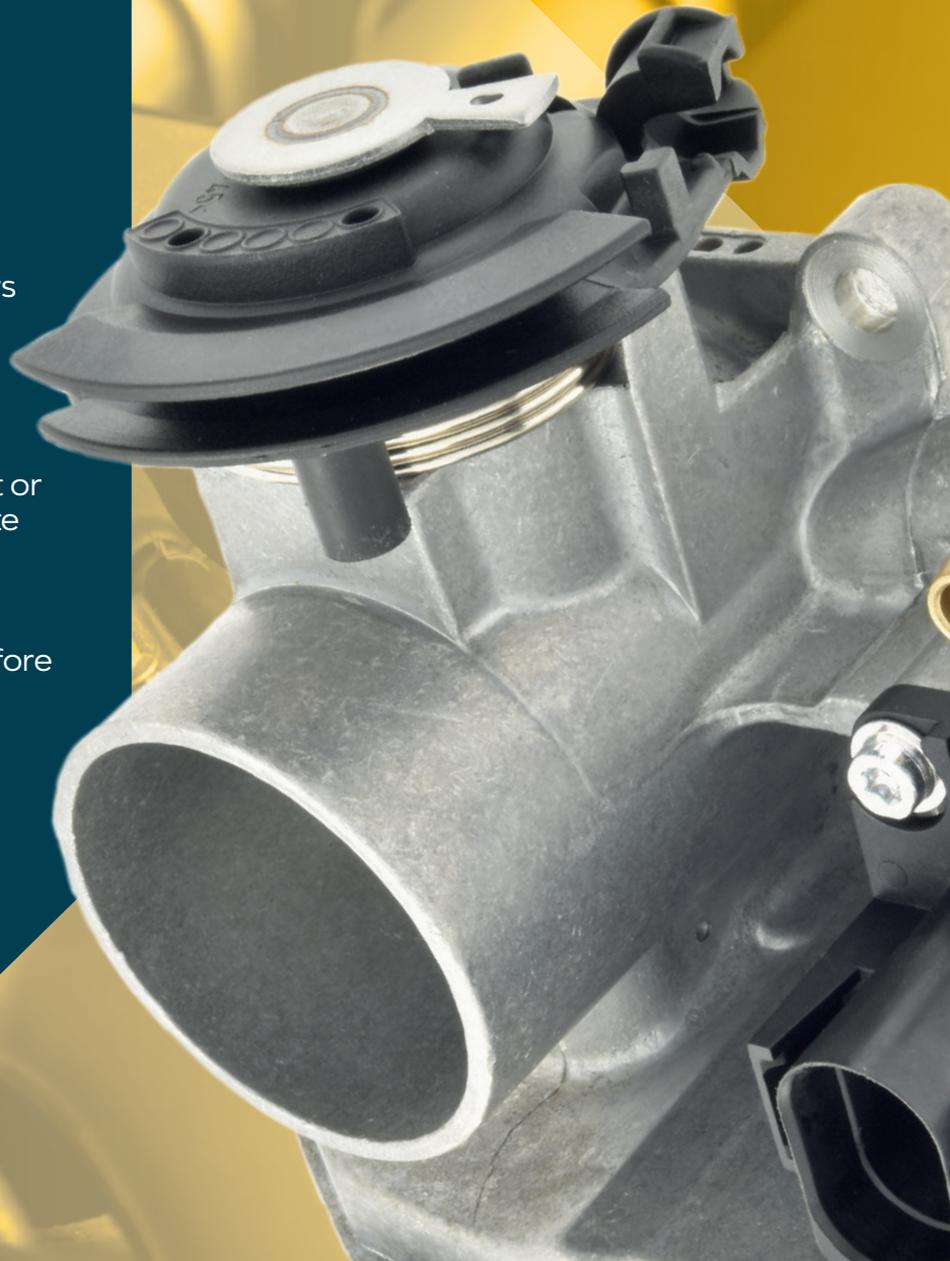

## VXPRO ENGINE MANAGEMENT RANGE

The fundamentals of the internal combustion engine may have remained unchanged since the first cars arrived on our roads in the late 1800s, but the sophistication surrounding them has advanced dramatically.

Today, traditional mechanics and cutting-edge electronics work together to deliver higher performance, greater efficiency, and lower emissions. At the heart of this evolution lies a network of sensors and switches that constantly monitor and adjust vital parameters such as air/fuel ratio, ignition timing, temperature, and exhaust output — all managed by the vehicle's ECU.

The VXPRO Engine Management range has been expertly developed by ELTA to meet the precise demands of the independent automotive aftermarket. Covering everything from airflow meters and camshaft sensors to temperature, pressure, and exhaust sensors, VXPRO delivers a complete solution from a single, trusted source.

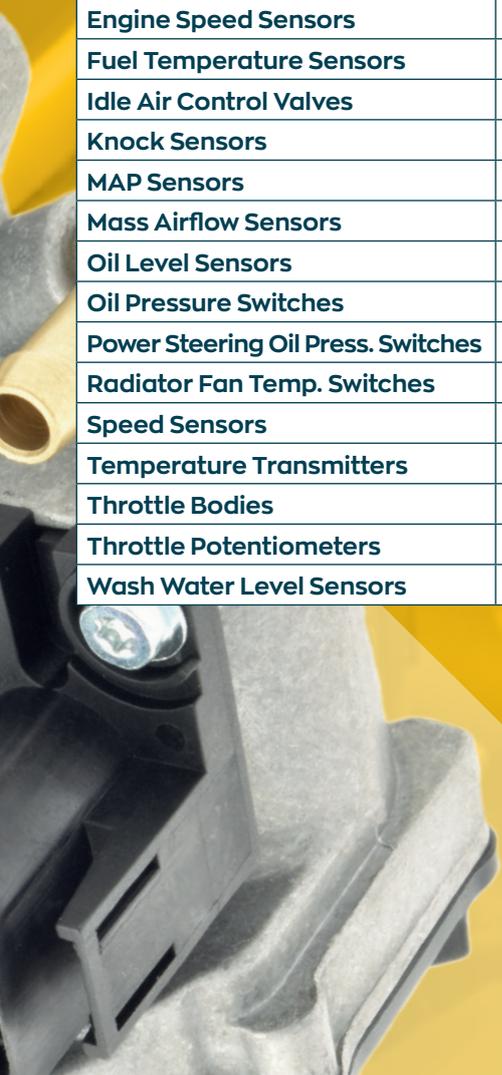

Each component is engineered to meet or exceed OE standards, ensuring accurate performance, reliability, and durability. Every unit undergoes 100% end-of-line testing to confirm operation within the manufacturer's original parameters before being sealed in magnetically shielded packaging for ultimate protection.

# ENGINE MANAGEMENT OVERVIEW

Sub Product Group	Parts in Range	No. of Applications
<b>ENGINE SENSE &amp; CONTROL</b>		
Accelerator Sensor	5+	350+
Air Temp. Sensors	60+	8500+
Boost Pressure Sensors	35+	1800+
Camshaft Position Sensors	270+	1350+
Camshaft Adj. Control Valves	65+	2800+
Coolant Level Sensors	15+	2000+
Crank Angle Sensors	500+	1350+
Engine Speed Sensors	45+	2170+
Fuel Temperature Sensors	5+	990+
Idle Air Control Valves	75+	1000+
Knock Sensors	140+	3000+
MAP Sensors	240+	13,750+
Mass Airflow Sensors	380+	12,000+
Oil Level Sensors	120+	7760+
Oil Pressure Switches	130+	10,850+
Power Steering Oil Press. Switches	5+	600+
Radiator Fan Temp. Switches	170+	4000+
Speed Sensors	40+	2400+
Temperature Transmitters	265+	13,000+
Throttle Bodies	170+	4875+
Throttle Potentiometers	45+	1350+
Wash Water Level Sensors	5+	2400+

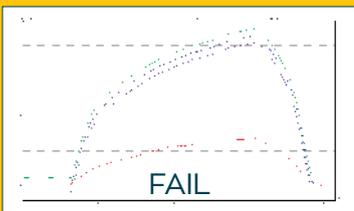

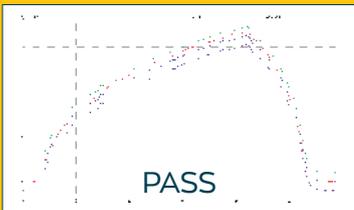

Sub Product Group	Parts in Range	No. of Applications
<b>IGNITION</b>		
Condensors	15+	170+
Contact Sets	35+	700+
Distributor Caps	80+	1400+
Ignition Coils	550+	18,000+
Ignition (HT) Leads	695+	4000+
Rotor Arms	60+	1500+
<b>FUELLING</b>		
Diesel Fuelling Components	15+	1300+
Fuel Pumps & Assemblies	920+	9535+
<b>EXHAUST</b>		
EGR Valves	365+	10,500+
EGR Coolers	50+	3095+
Exhaust Gas Temp. Sensors	550+	10,000+
Exhaust Gas Pressure Sensors	100+	6710+
Particle Filter Regen. Injectors	15+	220+
Lambda Sensors	280+	7280+
Urea Dosing Modules (AdBlue® Inj.)	15+	900+
Fuel Vaporisers	16+	215+
Vacuum Control Valves (EGR)	55+	1200+

## PRODUCT FOCUS: MASS AIRFLOW SENSOR (MAFS)

A Mass Airflow Sensor (MAFS) plays a crucial role in engine management by measuring the precise volume of air entering the engine. This data allows the ECU to optimise the air-fuel ratio, ensuring efficient combustion, reduced emissions, and improved drivability.

VXPRO test results showing performance matched to OE.

## TECHASSIST

### WHY DOES IT FAIL?

MAF sensors typically fail due to:

- Contamination by oil, dirt, or pollen (often from re-oiled aftermarket air filters)
- Wiring damage or corrosion at the connector
- Internal degradation of the sensing element due to age or vibration
- Moisture ingress or condensation leading to signal distortion

Even small inaccuracies in airflow readings can significantly affect fuel injection, ignition timing, and emissions control.

Scan this QR code to watch **Ed from Uckfield Motor Services'** video explaining all things MAFS.

# SENSE & CONTROL

Precision, reliability, and performance — that’s what VXPRO Sense & Control components deliver. Covering a wide range of sensors, switches, and control units, the range is designed to ensure accurate monitoring and regulation of key engine functions.

From temperature and pressure sensors to position switches and speed detectors, each part is engineered to meet OE standards and support optimal vehicle performance, efficiency, and emissions control.

Sub Product Group	Parts in Range	No. of Applications
Accelerator Sensor	5+	350+
Air Temp. Sensors	60+	8500+
Boost Pressure Sensors	35+	1800+
Camshaft Position Sensors	270+	1350+
Camshaft Adj. Control Valves	65+	2800+
Coolant Level Sensors	15+	2000+
Crank Angle Sensors	500+	1350+
Engine Speed Sensors	45+	2170+
Fuel Temperature Sensors	5+	990+
Idle Air Control Valves	75+	1000+
Knock Sensors	140+	3000+

Sub Product Group	Parts in Range	No. of Applications
MAP Sensors	240+	13,750+
Mass Airflow Sensors	380+	12,000+
Oil Level Sensors	120+	7760+
Oil Pressure Switches	130+	10,850+
Power Steering Oil Press. Switches	5+	600+
Radiator Fan Temp. Switches	170+	4000+
Speed Sensors	40+	2400+
Temperature Transmitters	265+	13,000+
Throttle Bodies	170+	4875+
Throttle Potentiometers	45+	1350+
Wash Water Level Sensors	5+	2400+

# IGNITION

From time-tested traditional ignition systems to cutting-edge coil-on-plug technology, VXPRO covers it all. Our range is built to serve the needs of independent motor factors and workshops, combining meticulous manufacturing standards with competitive pricing that protects your margin and helps you be the competition.

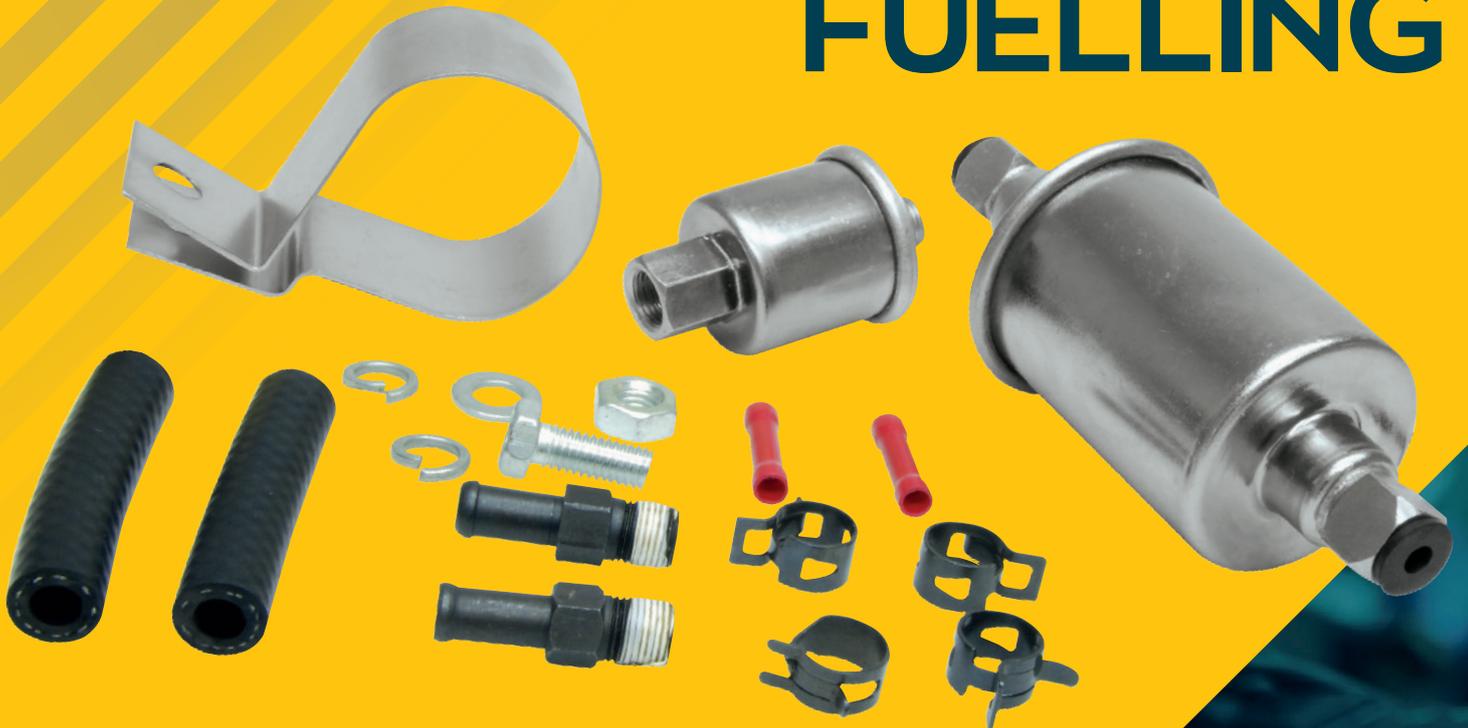

In early ignition systems, a distributor, mechanical contact breaker points, and a capacitor (condenser) worked together to control spark timing. Modern engines, however, rely on fully electronic systems that deliver faster, more reliable performance.

The traditional distributor is replaced by electronically controlled ignition, often using one coil per cylinder (or per pair of cylinders) for optimal combustion efficiency.

Sub Product Group	Parts in Range	No. of Applications
Condensers	15+	170+
Contact Sets	35+	700+
Distributor Caps	80+	1400+
Ignition Coils	550+	18,000+
Ignition (HT) Leads	695+	4000+
Rotor Arms	60+	1500+

# FUELLING

From in-line pressure fuel pumps and complete pump assemblies to precision-engineered injectors and diesel fuelling components, every part is built to OE standards for consistent performance and long-term durability.

With comprehensive coverage of today's car parc, VXPRO Fuelling equips independent motor factors and workshops to compete confidently with dealer networks — delivering quality, reliability and profit with every fit.

Having issues with a Fuelling component?  
Our TechASSIST team is ready to help you isolate the issue.

Sub Product Group	Parts in Range	No. of Applications
Diesel Fuelling Components	15+	1300+
Fuel Pumps & Assemblies	920+	9535+

**VXPRO**

ENGINE MANAGEMENT

# EXHAUST

## PRODUCT FOCUS: EXHAUST GAS RECIRCULATION (EGR) VALVES

The EGR valve recirculates a portion of exhaust gases back into the intake system. As a result, this process lowers combustion temperatures and significantly reduces harmful nitrogen oxide (NOx) emissions.

Furthermore, a properly functioning EGR valve supports emissions compliance, improves fuel economy, and helps prevent long-term engine damage.

As with all VXPRO components, each part is carefully engineered to match original performance.

## TECHASSIST

### WHY DOES IT FAIL?

EGR valve failure is typically caused by carbon build-up. Over time, soot and unburned fuel residues accumulate, which can clog the valve or restrict its movement.

What else could it be? Check for:

- Split hoses and blocked pipes
- EGR coolers (some are separate units)
- Multiple EGR valves (some vehicles will have high/low pressure systems)
- Faulty pressure converters or Exhaust Gas Temperature Sensors

Scan this QR code to watch Ed from Uckfield Motor Services' video explaining all things EGR.

# EXHAUST

The VXPRO Exhaust range is designed to keep emissions systems performing at their best.

Covering everything from EGR valves and coolers to exhaust gas temperature and pressure sensors, the range ensures precise control and compliance across modern diesel and petrol engines.

It also includes the new Urea Dosing Modules (AdBlue® Injectors), a brand new range supporting modern SCR (Selective Catalytic Reduction) diesel systems – all engineered to OE standards for dependable efficiency and cleaner performance.

**NEW!**

With emissions legislation tightening and SCR technology now essential across passenger and commercial diesel vehicles, our new Urea Dosing Modules (AdBlue® Injectors) offer the perfect balance of quality, reliability, and value for independent motor factors and garages.

All backed by our 5-year warranty, and supported by TechASSIST and StockASSIST for easy support and range management.

Sub Product Group	Parts in Range	No. of Applications
EGR Valves	365+	10,500+
EGR Coolers	50+	3095+
Exhaust Gas Temp. Sensors	550+	10,000+
Exhaust Gas Pressure Sensors	100+	6710+
Particle Filter Regen. Injectors	15+	220+
Lambda Sensors	280+	7280+
Urea Dosing Modules (AdBlue® Injectors)	15+	900+
Fuel Vaporisers	16+	215+
Vacuum Control Valves (EGR)	55+	1200+

# HEATING & COOLING

The VXPRO Heating & Cooling range keeps cabins comfortable and engines protected, whatever the conditions.

From heater blower motors that ensure dependable cabin airflow, to fan speed controllers and resistors that regulate climate control, and precision-engineered thermostats that safeguard engines against overheating or overcooling, every part is designed and tested to OE standards for lasting performance and easy installation.

## Heater Blower Motors

High-performance motors delivering powerful, consistent airflow to maintain cabin comfort and demist windscreens in all weather.

## Heater Blower Motor Resistors & Fan Speed Controllers

OE-matching components that accurately control blower speed for precise climate regulation and quiet operation.

## Thermostats

Modern and traditional designs, many with integrated housings, all engineered to keep engines at the correct operating temperature for optimum performance and efficiency.

Sub Product Group	Parts in Range	No. of Applications
Heater Resistors	200+	12,405+
Heater Blowers	95+	8820+
Thermostats	185+	14,000+

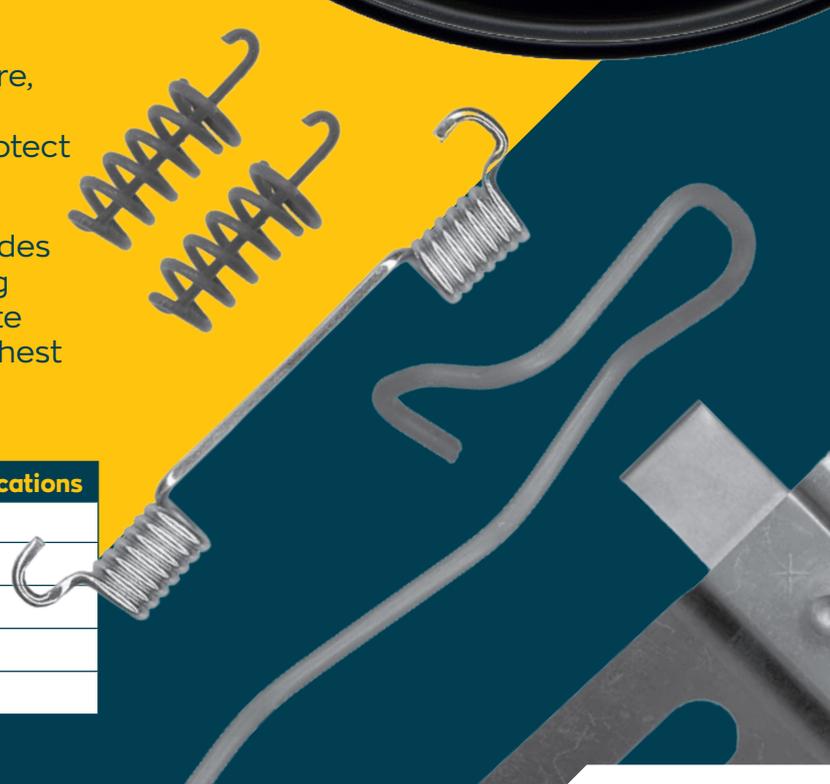

# BRAKING

From brake disc splash shields to pad wear indicators, caliper slide kits, and fitting hardware, the VXPRO Braking range is designed to help independent motor factors and workshops protect drivers, reduce downtime, and boost margins.

Our comprehensive braking programme provides full UK and European car-parc coverage, giving the aftermarket everything it needs to compete with dealer networks while maintaining the highest standards of safety and reliability.

Sub Product Group	Parts in Range	No. of Applications
ABS Sensors	1585+	18,910+
Brake Wear Sensors	310+	12,000+
Brake Splash Shields	220+	7145+
Brake Fitting Kits	800+	26,450+
Caliper Slide Kits	210+	49,600+

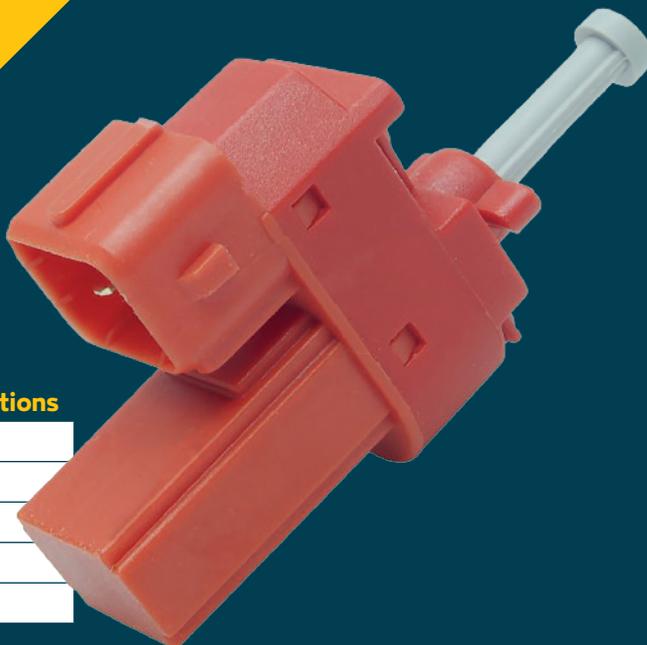

# ELECTRICAL

VXPRO's Electrical range delivers the consistent power and precise control that today's vehicles demand. From starter and charging components to switches, relays, washer pumps, wiper motors, horns and window lift regulators, every product is engineered to OE standards for performance and long-term durability.

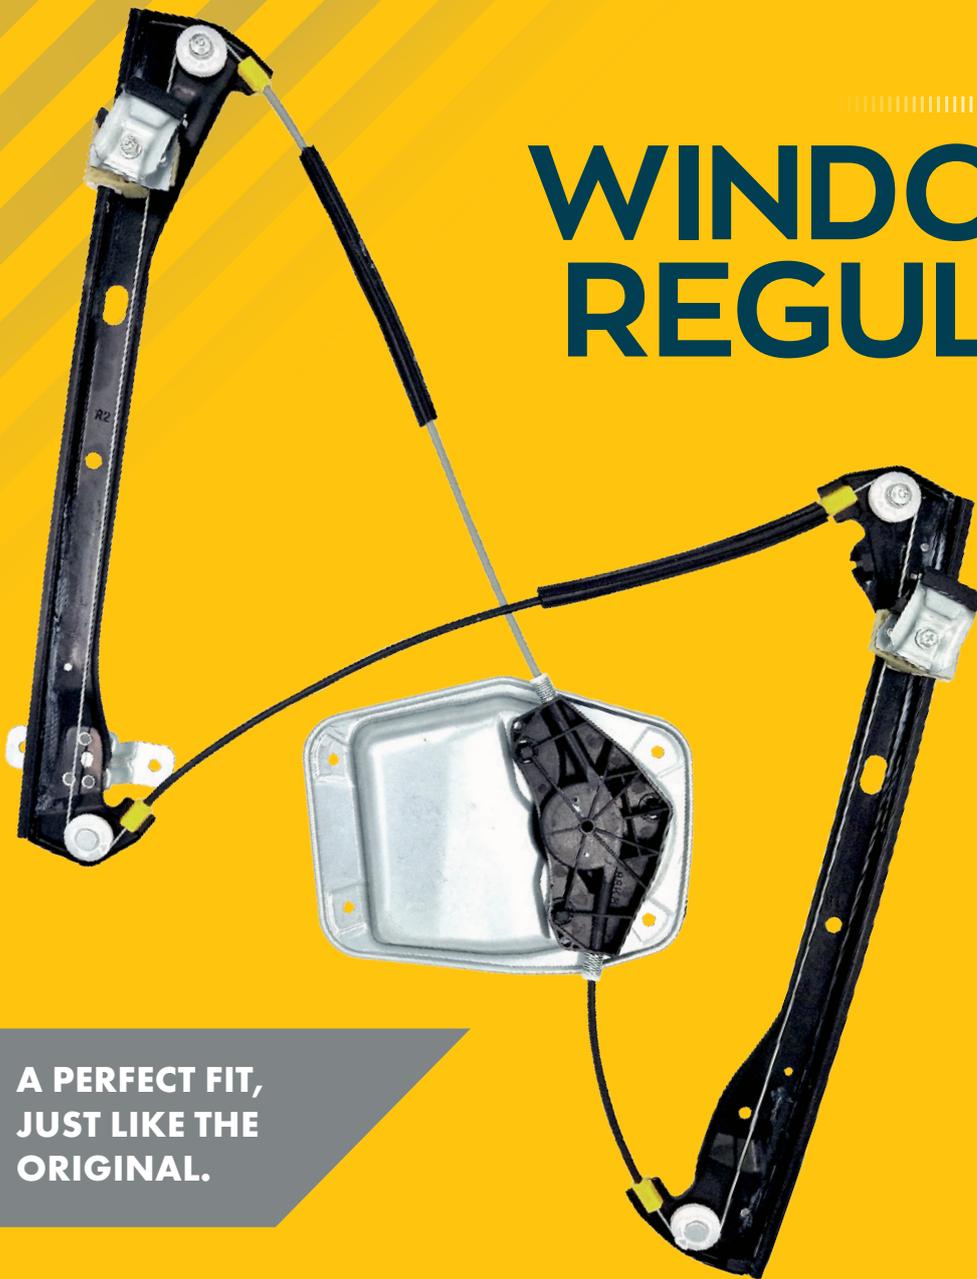

Our comprehensive programme gives motor factors and workshops full car-parc coverage and the confidence to compete with main dealer networks.

Whether you're restoring power, safeguarding visibility, or ensuring vital safety systems work flawlessly, VXPRO electrical components help *Champion the Aftermarket* with quality and value you can trust.

Sub Product Group	Parts in Range	No. of Applications
Brake Light Switches	150+	16,000+
Clutch Switches	35+	6100+
Parking Distance Sensors	30+	2200+
Reverse Light Switches	120+	7900+
Signal Horns	10+	Universal

# WINDOW LIFT REGULATORS

VXPRO Window Lift Regulators are precision-engineered for a perfect fit and smooth, quiet window operation.

Designed to mount to original fixing points using original fixings, VXPRO delivers a true plug-and-play solution with no modifications required. With robust construction and high-grade materials, they deliver long-term durability in daily-use conditions.

Engineered to look and fit just like the original. Mounting to original points using original fixings, no modifications required.

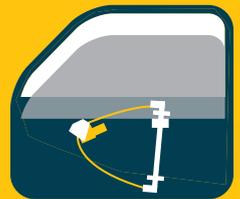

**A PERFECT FIT,  
JUST LIKE THE  
ORIGINAL.**

Cable System

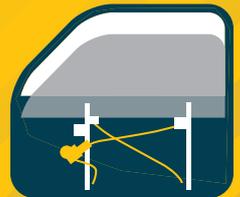

Bowden System

Scissor System

Double Bowden System

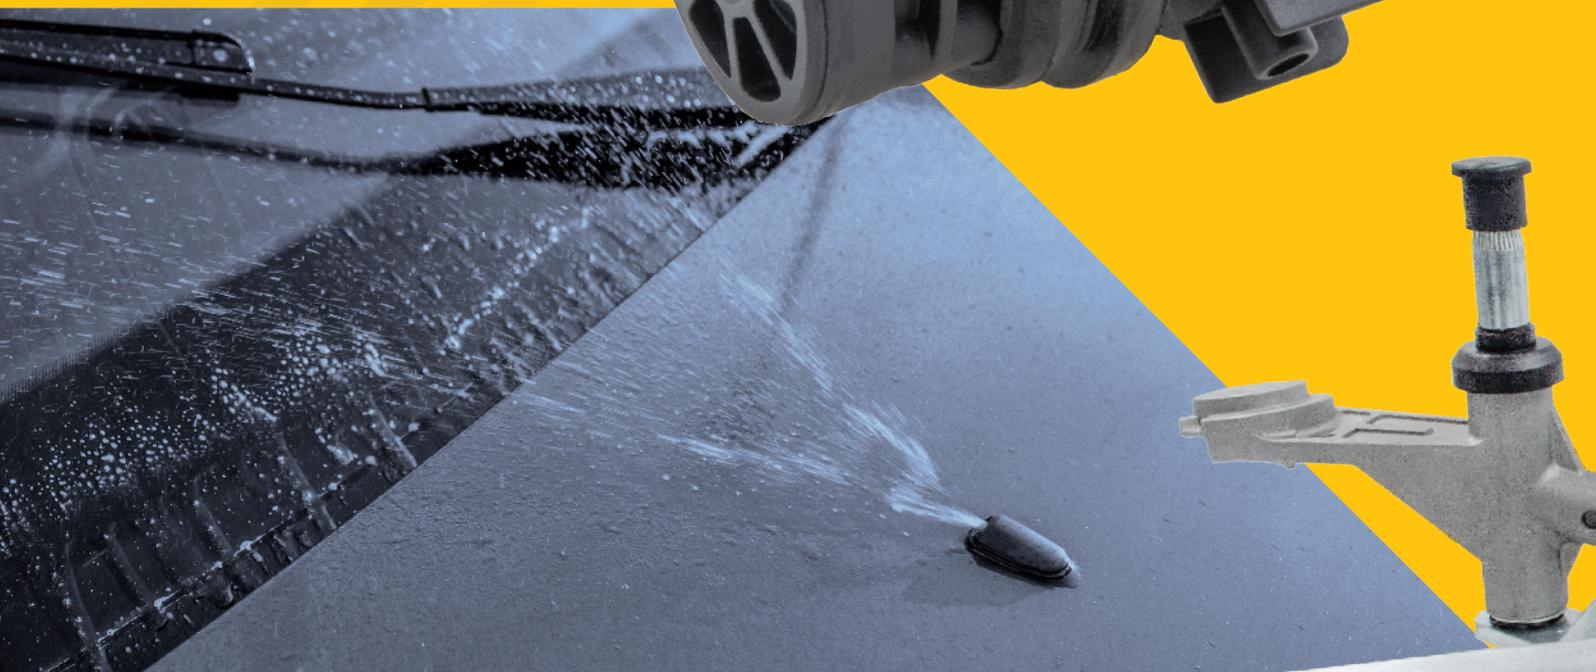

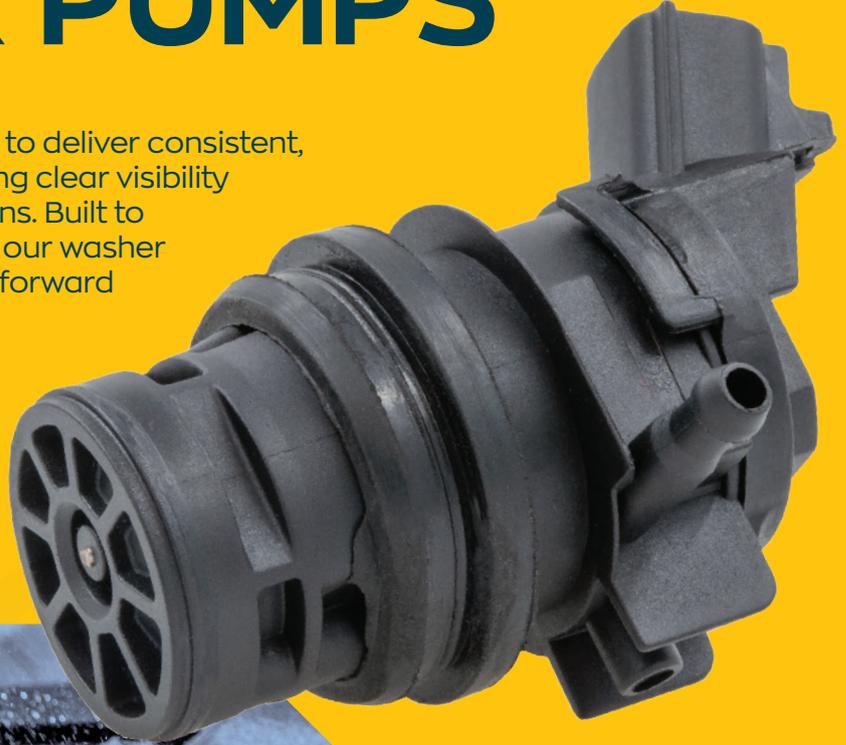

Sub Product Group	Parts in Range	No. of Applications
Mechanisms & Motors	2050+	57,000+

**VXPRO**

ELECTRICAL

# WASHER PUMPS

VXPRO Washer Pumps are engineered to deliver consistent, high-pressure washer fluid flow, ensuring clear visibility and safe driving in all weather conditions. Built to match OE performance and durability, our washer pumps are designed for quick, straightforward replacement across a wide range of vehicle applications.

Sub Product Group	Parts in Range	No. of Applications
Washer Pumps	105+	16,000+
Washer Tank Level Switches	5+	4635+

# WIPER MOTORS & LINKAGES

**Having Wiper System Issues?**  
Our TechASSIST team is ready to help you isolate the issue.

## TECHASSIST

### WHY DO THEY FAIL?

- Wear and tear of internal motor brushes or gears
- Corrosion or water ingress in motor housing
- Worn joints or bushes in the linkage causing excess play
- Seized pivots creating extra load on the motor
- Electrical issues such as burnt fuses, relays, or faulty wiring

VXPRO Wiper Motors and Linkages are built to deliver reliable, consistent wiping performance for a clear view in all driving conditions. Whether supplied as individual wiper motors, linkages, or complete motor-and-linkage assemblies, each unit is engineered to OE standards for durability, smooth operation, and long service life.

Sub Product Group	Parts in Range	No. of Applications
Wiper Motors	55+	2700+
Wiper Linkages	20+	500+

## WIN CUSTOMERS.

### DELIVER THE QUALITY YOUR CUSTOMERS EXPECT

Engineered to deliver the performance your customers can demand at a price that keeps them coming back.

Helps build trust, loyalty, and repeat business.

Supports a professional reputation with quality parts that fit right, first time.

## PROTECT MARGIN.

### STAY COMPETITIVE WITHOUT SACRIFICING YOUR MARGIN

Priced to give garages and factors a fair, sustainable profit.

Reduces reliance on high-cost original equipment branded parts without compromising customer satisfaction.

Helps you stay competitive in a market where every penny counts.

## DRIVE GROWTH.

### THE RIGHT PRODUCT AT THE RIGHT PRICE TO WIN MORE BUSINESS

Backed by a 5-year warranty and expert TechASSIST support for complete confidence.

Builds long-term relationships with customers through consistency and trust.

Supported by marketing and stock solutions that enable you to scale sustainably.

## RECLAIMING THE INDEPENDENT AFTERMARKET

In today's aftermarket, independent businesses face growing pressure — from customers expecting the highest quality components at the lowest possible price to franchised dealers benefiting from pricing advantages and manufacturer backing.

At ELTA, we believe it shouldn't be this hard to compete.

That's why we created VXPRO — a brand built specifically to support the independent aftermarket. Whether you're supplying parts as a factor or fitting them in a workshop, **VXPRO is here to help you stay competitive without compromise.**

- Engineered to perform like the original
- Priced to protect your margins
- Backed by a 5-year warranty and real technical support

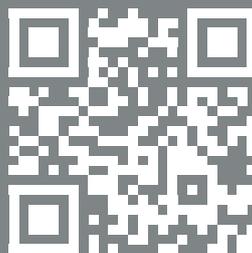

**We don't just deliver parts — we deliver confidence, service, and a strategy that supports the long-term strength of your business.**

We're not an original equipment brand. We're something better for the aftermarket — made for it, by it.

Together, we can champion the aftermarket and create a fairer, stronger future for independents across the industry.

**JOIN THE GARAGES AND FACTORS ALREADY WINNING WITH VXPRO:**

Sign up using the QR code or visit [champion.eltaeurope.com](http://champion.eltaeurope.com)

# CHAMPION THE AFTERMARKET

**VXPRO exists to empower the independent aftermarket.**

We deliver products engineered to perform just like the original, at a price point that helps you sharpen your competitive edge against franchised dealers — win customers, protect margin, and drive growth.

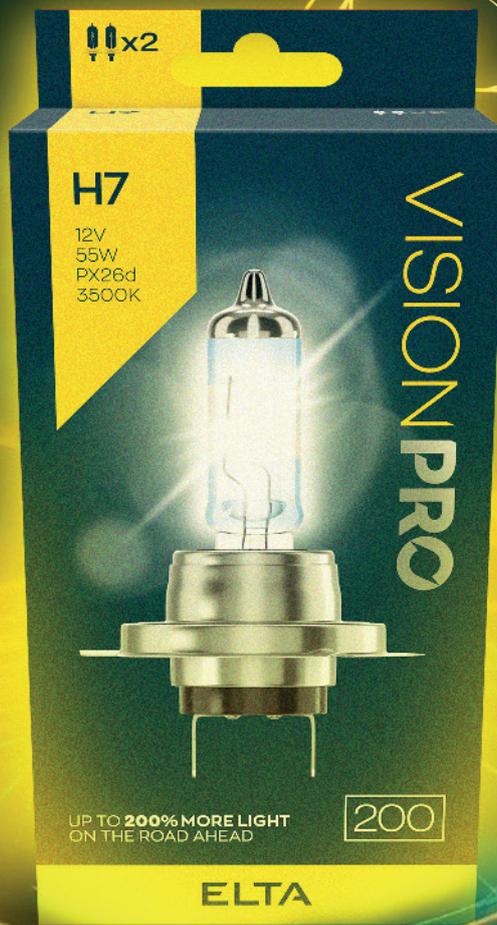

Backed by expert support and market-leading warranties, VXPRO champions independence, quality, and the future of the aftermarket.

**Be the competition.**

# RETAIL BULBS

## Bulbs that deliver on every level.

VisionPRO offers one of the most comprehensive automotive bulb portfolios in the world, covering every application from the smallest interior panel bulb to the most advanced HID lamp. Each reference is carefully engineered to match OE specifications, ensuring precise fit, reliable performance, and full E-mark approval for road use.

### Retail packs

Built for retail success, VisionPRO Retail Packs combine eye-catching design clear communication to help customers choose the right bulb confidently. Now available in durable, plastic-free packaging; part of our mission to reduce plastic use without compromising performance.

NOW AVAILABLE  
IN PLASTIC FREE  
PACKAGING

### Single boxes

Championed by ELTA decades ago, setting the benchmark in the trade. Single boxes are perfect for motor factors, allowing single unit sales whilst protecting the bulb and maintaining brand visibility. Available across the entire range of 6V, 12V and 24V bulbs.

### Trade packs

Targeted at garage and workshop users, 10-pack boxes offer convenience and deliver increased value with less waste. These packs help keep stock readily available for busy workshops. Available on our most popular 12V and 24V bulbs.

# MIRRORS

From replacement mirror glass to colour-matched or textured covers and OE-quality mirror indicators.

Whether repairing minor bumps and scrapes or completing a full mirror rebuild, VisionPRO Mirror Parts allow motor factors and workshops to deliver safe, cost-effective repairs that restore visibility and keep vehicles looking their best.

Every component is precision-engineered for a perfect fit and lasting performance.

## Mirror Glass

OE-quality replacement glass — available with standard, heated, and blind spot detection options — for a simple, cost-effective repair that restores safety and visibility

## Mirror Covers

Available in black textured finish, primed ready for paint, or paint-to-match designs, providing a perfect aesthetic finish for every repair.

## Mirror Indicators

High-visibility LED indicators designed for reliability and style, ensuring other road users see every turn and lane change.

Sub Product Group	Parts in Range	No. of Applications
Mirror Glass	320+	10,000+
Mirror Covers	230+	8700+
Mirror Indicators	80+	4500+

# INSPECTION LAMPS

## Work lamps for every task.

Built tough for tough jobs, whether in the garage, under the hood, or out in the field, these lamps are steadfast companions for the workflow of a busy mechanic.

### VISIONPRO500PL

- 500 lm LED with 400 lm, 180 lm, and flash modes
- Rotating clip with magnet
- 80-300 minutes run time

### VISIONPRO350UV

- 350 lm COB front LED with 100 lm focused beam
- 400 nm UV light for leak detection
- Rotating pocket clip with magnet
- 3-10 hours run time

### VISIONPRO1000L **NEW!**

- Powerful 1000 lm front COB LED with wide 120° beam
- Additional 100 lm top LED with focused 30° beam
- Ultra-strong magnetic base and flexible hook
- Up to 2.5 Hours of lamp light or 10 hours of torch light

### VISIONPRO600F **NEW!**

- 600 lm dimmable front COB LED with 120 lm top LED
- Ultra-strong magnetic base and flexible hook
- Up to 2.5 hours of front light or 7 hours top light run time
