# SPARK PLUGS

**With 150 years of original equipment and aftermarket experience, Lucas brings unrivalled heritage to the aftermarket with its range of Spark Plugs.**

Lucas Spark Plugs are precision-engineered using premium-grade nickel, platinum, and our ultra-durable iridium technology. These plugs are designed to withstand greater wear and tear, maintaining peak efficiency for longer service periods. Iridium spark plugs are also more reliable, require less frequent replacement, and deliver superior performance in the most demanding conditions.

The range is tailored to aftermarket demand to make stocking and selling Lucas Spark Plugs effortless. Ignite your sales performance with a trusted Lucas branded Spark Plug range.

## Fully tested for peace of mind

- ✓ **Resistance** - ensuring spark plug resistance meets the vehicle manufacturers original parameters.
- ✓ **Gap** - making sure the distance between the centre and ground electrodes is to exact requirements.
- ✓ **Vibration** - tested for durability under engine vibration conditions.
- ✓ **Temperature** - ensuring thermal durability at extreme temperatures for long term reliability.
- ✓ **Thread** - avoiding cross-threading for easy installation and removal, protecting the engine.
