## IGNITION POWER WHEN IT MATTERS WITH LUCAS

# GLOW PLUGS

With Lucas Spark Plugs continuing to prove ever popular, Lucas is now bringing over 150 years of original equipment and aftermarket expertise to the diesel market with a brand-new range of Glow Plugs.

Diesel engines thrive on compression ignition; but in cold weather, that edge is lost. Lucas Glow Plugs restore it. Heating rapidly before start-up, they deliver reliable ignition while reducing unburnt fuel, white/blue smoke, and cold-start knock. And thanks to extended post-glow, they keep the combustion chamber at the right temperature, cutting emissions and ensuring smoother warm-up.

This upcoming range is designed around the real needs of the aftermarket, making it simple to stock, sell, and fit with confidence.

### Ignite without compromise:

- ✓ **Rapid Warm-Up** - ready to fire in under a second, even in freezing weather.
- ✓ **Cleaner Starts** - reduces emissions and eliminates dreaded white/blue exhaust smoke.
- ✓ **Built to Last** - high-grade materials, laser traceability, and industry-leading testing ensure reliability and longevity.

**LUCAS GLOW PLUGS.  
IGNITE CONFIDENCE.**

**NEVER RUN OUT WITH  
CONVENIENT 10-PACKS**

Part No.	NGK/Bosch Ref.	Key Applications
