LUCAS GLOW PLUGS

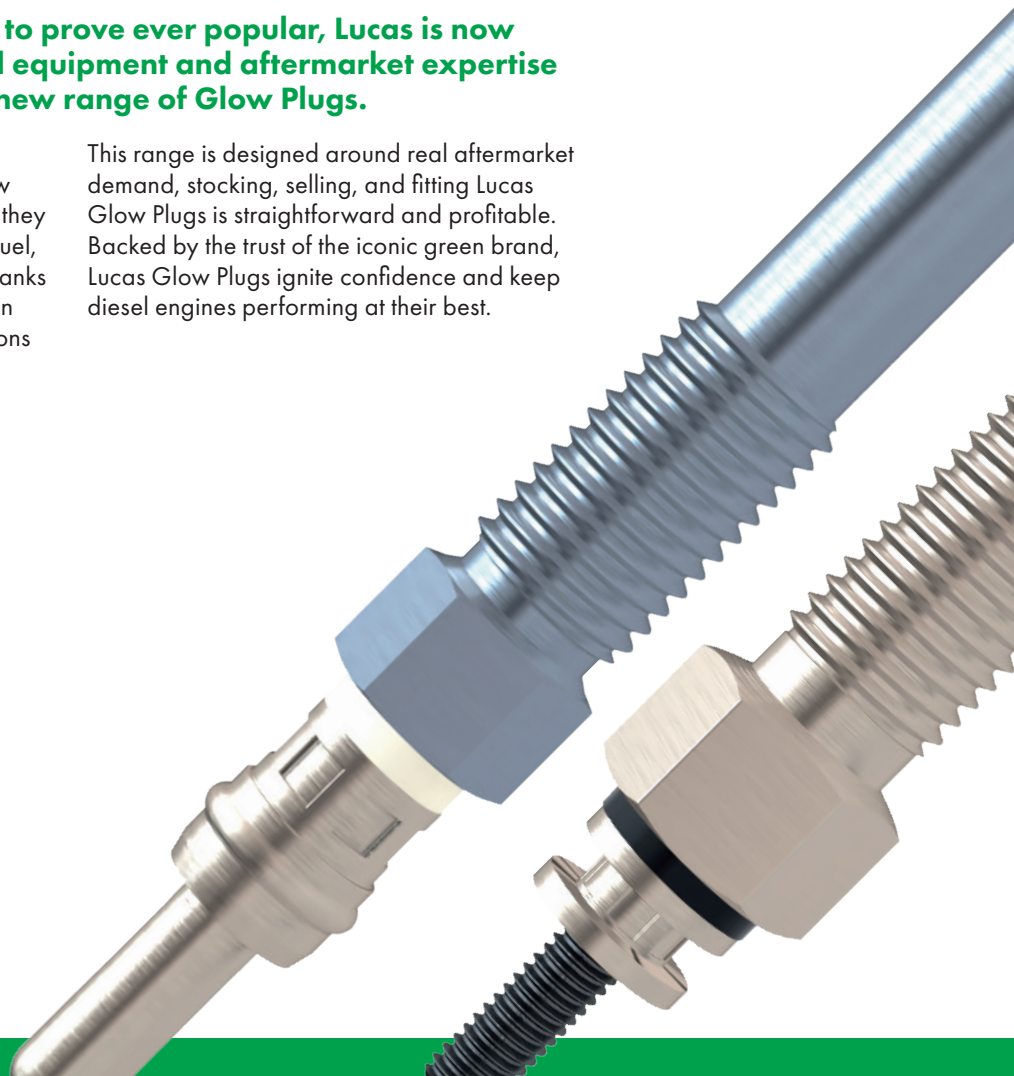

With Lucas Spark Plugs continuing to prove ever popular, Lucas is now bringing over 150 years of original equipment and aftermarket expertise to the diesel market with a brand-new range of Glow Plugs.

Diesel engines thrive on compression ignition; but in cold weather, that edge is lost. Lucas Glow Plugs restore it. Heating rapidly before start-up, they deliver reliable ignition while reducing unburnt fuel, white/blue smoke, and cold-start knock. And thanks to extended post-glow, they keep the combustion chamber at the right temperature, cutting emissions and ensuring smoother warm-up.

This range is designed around real aftermarket demand, stocking, selling, and fitting Lucas Glow Plugs is straightforward and profitable. Backed by the trust of the iconic green brand, Lucas Glow Plugs ignite confidence and keep diesel engines performing at their best.

Ignite without compromise:

- **Rapid Warm-up** - ready to fire in under a second, even in freezing weather.
- **Cleaner Starts** - reduces emissions and eliminates dreaded white/blue exhaust smoke.
- **Built to Last** - high-grade materials, laser traceability, and industry-leading testing ensure reliability and longevity.

LUCAS TOP FIVE GLOW PLUGS FROM STOCKASSIST:

We analyse vehicle parc data and sales demand to highlight the most popular Lucas Glow Plug references.

**NEVER RUN
