

SERCK[®]

AUTOMOTIVE

EXPANSION TANKS
ALSO AVAILABLE

EXP. TANK CAPS

The Expansion Tank plays a vital role in the engine cooling system, **allowing coolant to expand and contract as temperatures change while maintaining the correct coolant level.** By maintaining the **correct operating pressure**, the Expansion Tank Cap helps **increase coolant boiling point, improve cooling efficiency** and support stable engine temperatures under all driving conditions.

Small and amongst the most frequently replaced cooling system components.

Although small and often overlooked, a **faulty expansion tank cap can lead to coolant leaks, overheating and reduced cooling system performance.** Manufactured to rigorous quality standards and engineered for dependable sealing performance, **Serck Automotive Expansion Tank Caps provide reliable pressure control and long-term durability** across a wide range of passenger car and light commercial vehicle applications.

STOCKASSIST

Exposure to constant pressure changes, heat cycles and coolant vapours can gradually weaken seals and springs, affecting their ability to maintain correct system pressure. With StockASSIST, we help stockists identify the **most in-demand references based on UK vehicle parc data** and real-world service trends.

Here are 10 of the most requested references in our UK range:

CCC0038

CCC0018

CCC0009B

CCC0032

CCC0025

CCC0055

CCC0003

CCC0108

CCC0148

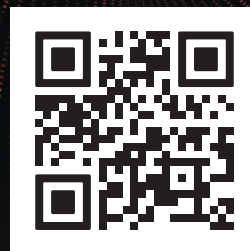

CCC0263

TECHASSIST

Free technical support for Serck Automotive and ELTA parts is available to technicians by phone and WhatsApp. Use text, voice, images, videos and links for our fastest & most effective customer support ever!

Scan the QR code to start a **WhatsApp chat** or call us on **+44 (0)1675 437429***
Mon - Fri 08:00-16:00

*You may be asked the name of the distributor from where your part was purchased.

Find the Parts You Need. Simple.
